

INSTALLATION INSTRUCTION

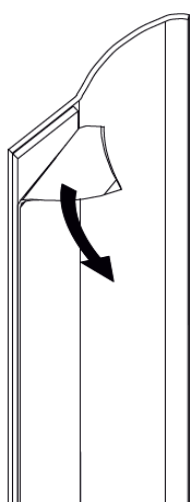

Classic roller blinds, Comfort GI

Classic blinds, Comfort GI

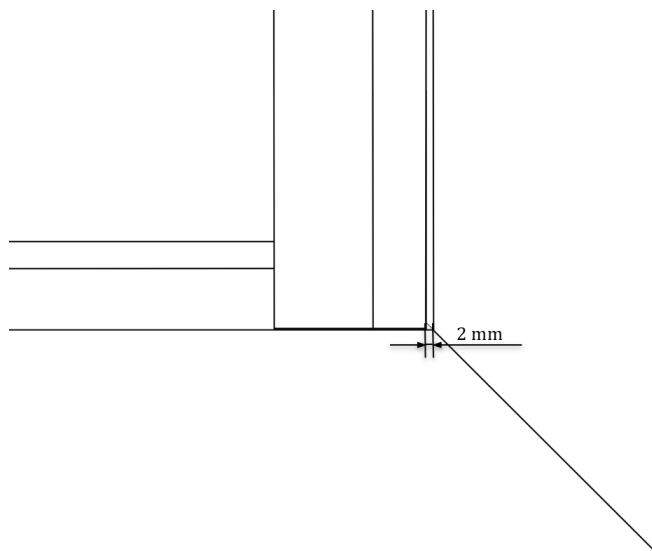

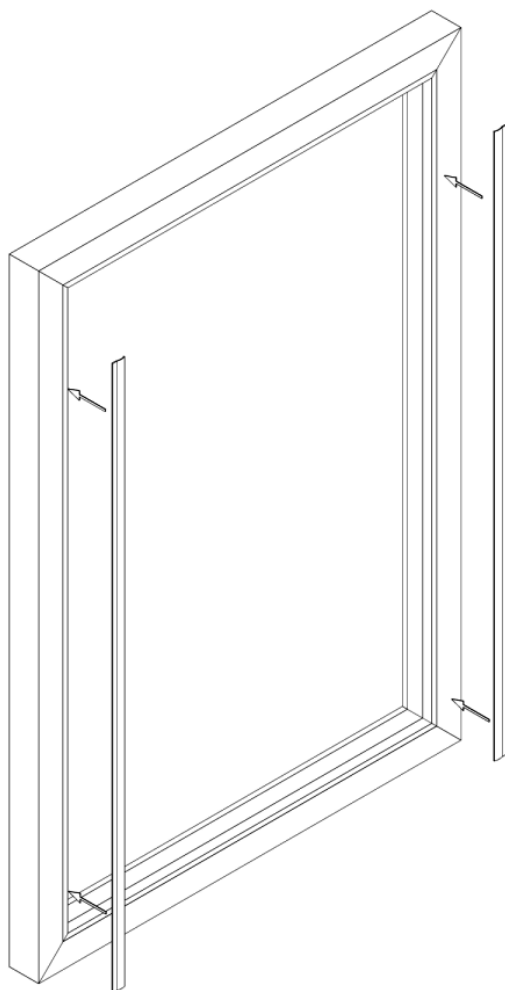

1.

Peel off the protective film from the adhesive tape from the guide. **IMPORTANT!** Before installing the guide, it is necessary to clean and degrease the window glass strips.

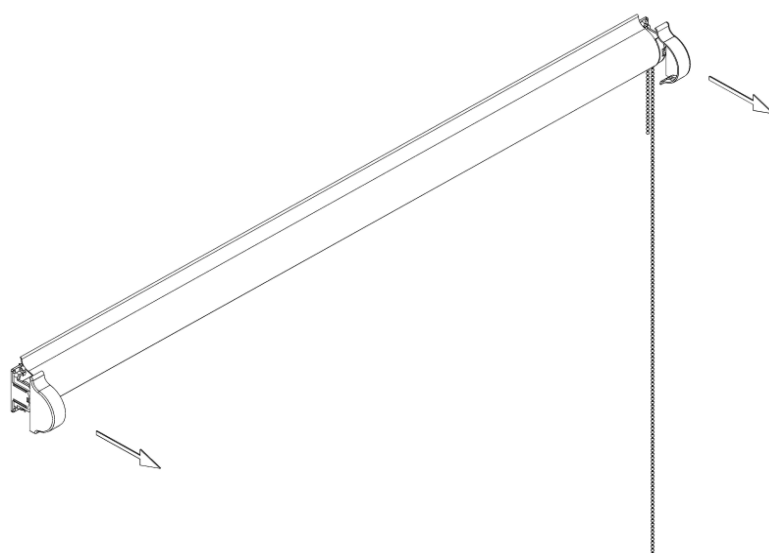

Classic roller blinds, Comfort GI

2.

Install the guides on the side glass strips of the window. Install the guides to the bottom of the glass strip, 2 mm from the edge of the glass strip.

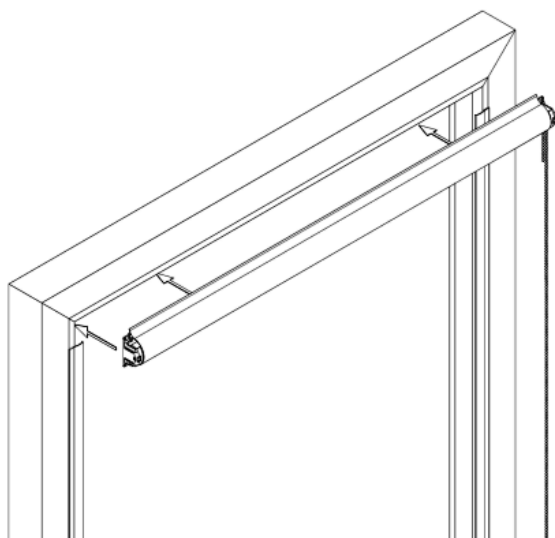

3.

Remove side caps of the roller blind.

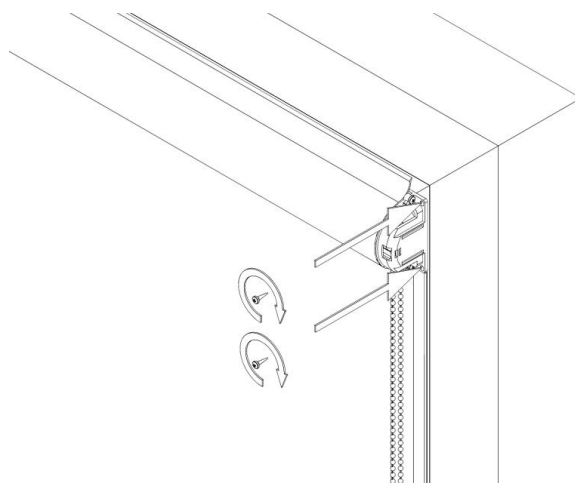

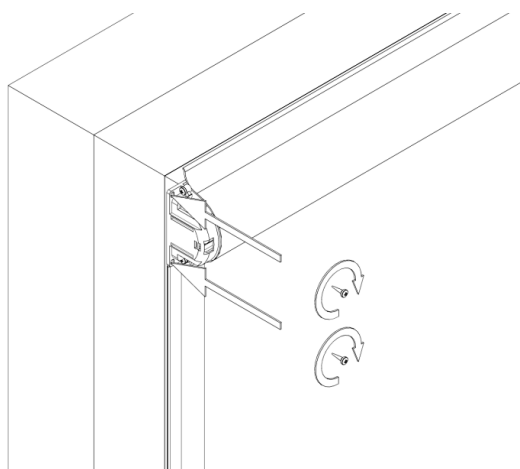

Classic roller blinds, Comfort GI

4.

Attach the blind to the window.

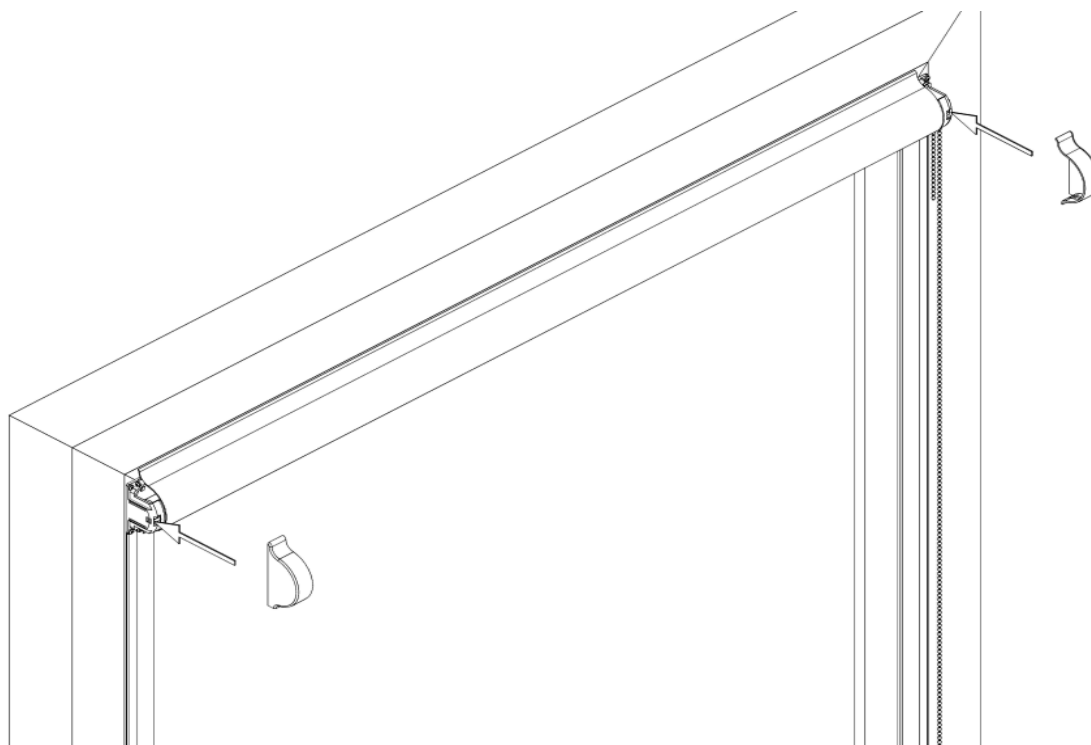

5.

Screw roller blind to the window.

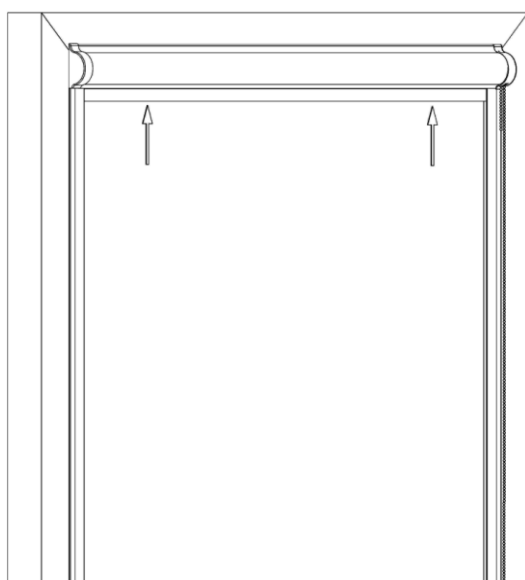

Classic roller blinds, Comfort GI

6.

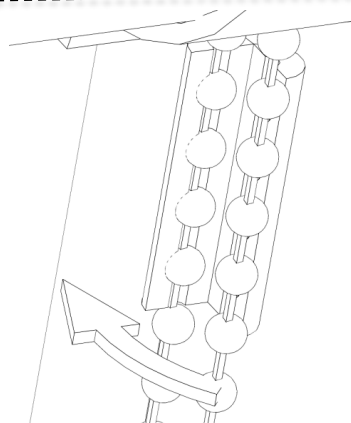

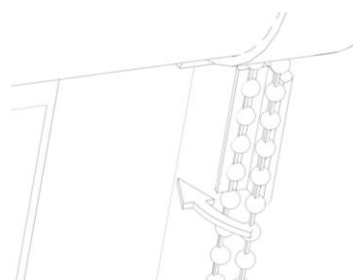

Put on the roller blind side covers.

7.

Raise the roller blind fabric to the desired top position.

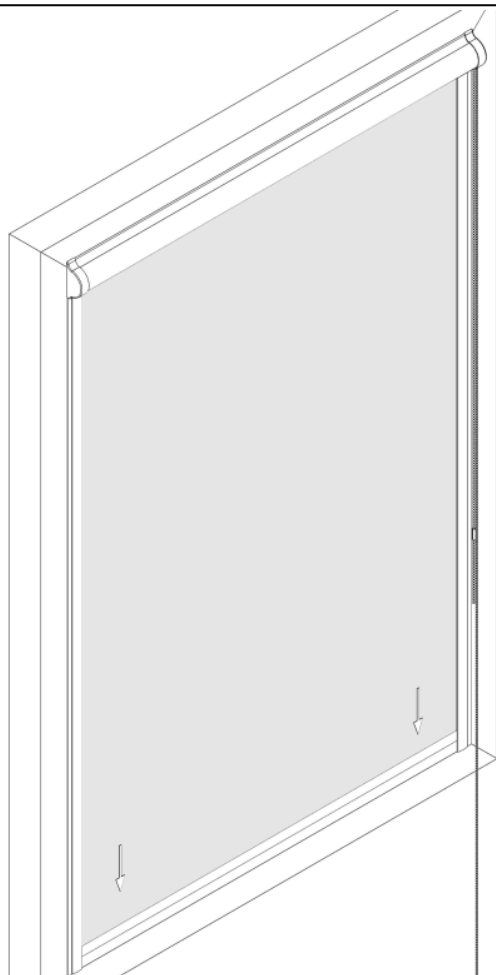

8.

Place the upper position limiter on the chain closer to the window.

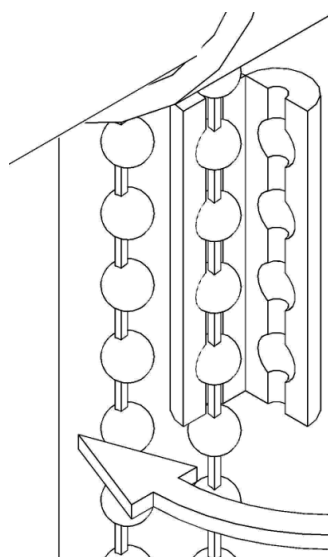

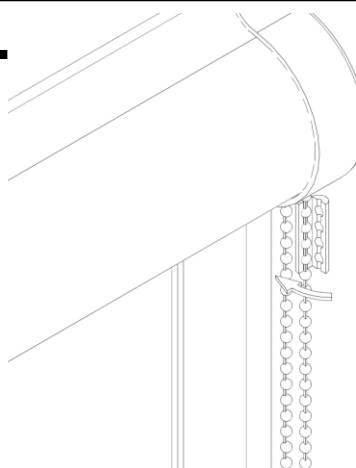

Classic roller blinds, Comfort GI

9.

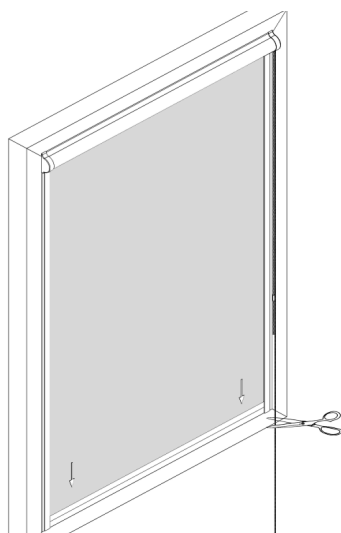

Lower the roller blind fabric to the bottom position.

10.

Place the lower position limiter on the chain farther from the window.

11.

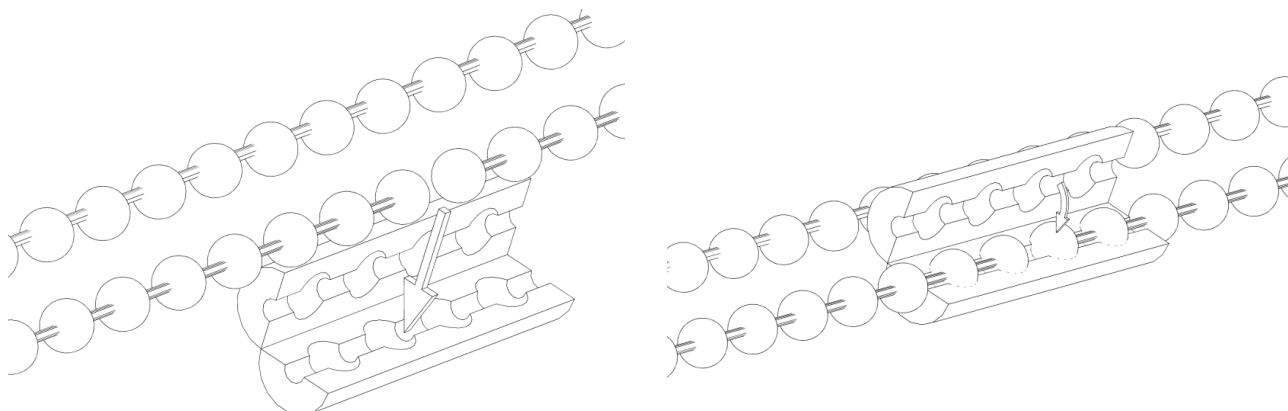

Shorten the chain to the desired length.

IMPORTANT! When shortening the chain, make sure that there is no upper or lower position limiter on the cut part.

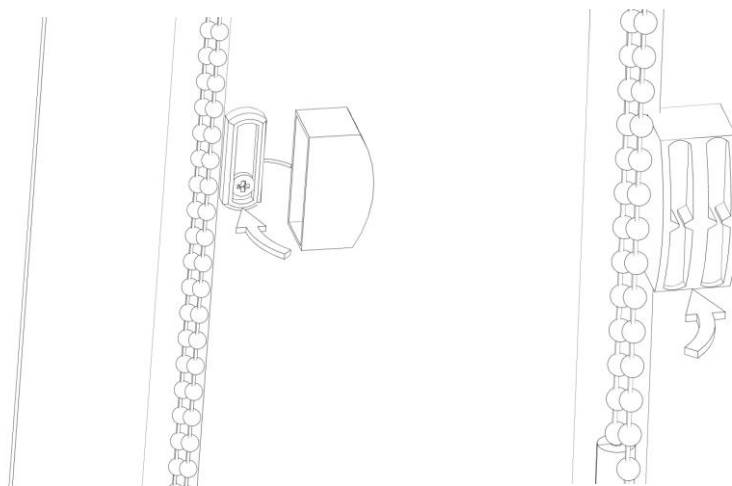

Classic roller blinds, Comfort GI

12.

Connect the chain with the chain connector.

13.

Attach the chain holder to the window frame.
